Mr. BRUCE advocated the name of "More

Mr. HANSON, in an eloquent manner, urged the name of "Metcalfe," not that he had any ob ection to the other names proposed, but that he thought it due to the memory of a great and good man, that that name should be inserted. When the county of Rowau was established he had urged the name of "Metcalfe," and a compro mise was made, upon the proposition of some of the friends of Rowan county, which gave this county the name of Metcalfe. It was suggested It was that there was a proposition for the establishment of another county, and in that bill the name of Metealfe had been inserted, but as there was some doubts as to whether the bill would pass, he objected to having the name stuck to a sinking ship, and insisted that the name of Metealfe should be inserted in the bill now underconsider

Mr. McELROY said that so far as the friends of the measure were concerned, they cared but little what name was given it. They wanted it, and insisted as a matter of right to the citizens living within the boundary of the proposed new county, that they should have it. The two Morehead's and Metealfe had friends in it, and citizen was a way to be a superficient of the county. either name would give entire satisfaction. He stated that it would not be a pauper county, as he had heard intimated, but that it would be as

were in a great hurry about naming the child be-fore it was born. They had better wait until the county was established, and then name it. He pposed the establishment of the county, and in sisted that it was doing the county of Hopkins great injustice to cut off a portion of it, and form it into a new county, just to accommodate the citizens of Union living in that portion of the county that was added to the new one. He was satisfied that the citizens of Hopkins were opposed to the measure, and he hoped the bill would

Mr. MENZIES made a few remarks, in favor of the name of Metealfe. Mr. BRUCE again made a few remarks in favor of the name of "Morehead," and in explanation of his position upon the bill establishing

the county of Rowan. The question was then taken, and the name of Metcalfe was inserted.

The name of "Barry" was then inserted as the

name of the county seat.

Mr. MORROW again opposed the passage of the bill.

The bill was further amended, and the question being taken upon the passage of the same, it was decided in the negative—yeas, 44; nays, 47.

REPORTS FROM STANDING COMMITTEES. Mr. McELROY-Propositions and Grievances -a bill to change the boundary line between the counties of Shelby and Oldhau: passed. Same-a bill in relation to the removal of the

county, a ascertained from the evidence before the committee.

Mr. WINN opposed the bill, staring that it would cut off about one-third of the wealth, population, &c., of the county of Barren, and would reduce her to one member on the floor of the House of Representative. He acknowledged that some of the citizens living within the boundary of the proposed new county, were agarieved by the great distance that they resided boundary of the proposed new county, were aggreed by the great distance that they resided from the county seat of their several counties. He was satisfied that a majority of the citizens of Barren county were against the formation of this county. He did not know whether the new county would be a paying county or not but he county would be a pauper county or not, but he believed that it would make Barren one. He al so opposed it upon the ground of economy. He stated that they were now two years behind in the business of the Courts, and if another county was added to the judicial district, it would make t a matter of impossibility for the legal bus of the county ever to be tranmeted. He hoped

Mr. BEAUCHAMP advocated the passage of the bill. He stated that it was due to the citizens of that portion of Barren county re iding in the houndary of the proposed new one, that the should have a new county; they were an intelli-gent and industrious set of farmers, nine hun red of whom had petitioned for the establish ment of the new county. He was well acquaint ad with the territory and the residents thereof, and as they had sustained him, he fell bound

only and as they had sustained rin, he let bound to advocate the passage of the bill.

Mr. GAITHER opposed the passage of the bill. He stated that this project for a new county lad been a standing dish for the last thirty years. He hoped that they would let his county aloue, for if they cut off what was proposed, it would reduce it below the ratio of representation. and he did not wish to be dependent upon other counties in order that Adair might have a repre-Sentative upon this floor.

After some further remark by Messes

Message of the Governor of Minnesotas-Affairs of the Territory.

The following is a synopsis of the late Message of Governor Gorman to the Minnesota Legisla

He estimates the population of the Paritory a He aunounces that the President has given him

notice that the three tribes of Indians now resi-ing in the Territory, cannot be disturbed and sent further wes. All the tribe, are pencerole and triendry.

He advocates an increase in the salaries of Auditor, Treasurer, and Superintendent of Common Schools, now only \$1,000 per annum, each; and gives the value of taxable property in the Terri-

rv at over \$15,000,000. Since the close of the se sion, officers lave been appointed for the counties of Dodge, Steel, Olmsted, Rice, Carver, Superior, Wright and

Although look a received no report from the Superintendent, yet he has been able to learn that nearly every village in the Territory has a school for the education of small children, all of which have been well attended. The Hamline University, at Red Wing has contemplated a large brick building. The College and Seminaries of learning at St. Paul are in a flourishing condition. The Territorial University, located at St. Anthony, has not progressed since last year for want of funds. Twenty thousand acres of

land, partly agricultural and partly pine, has been chosen for school purposes already.

The Minnesota and Northwestern Railroad Company have forfeited their charter by not makng the payment, in stocks or money, of \$150,000 pefore the expiration of six months succeeding he amendment of their charter. A suit is now pending between the U. States and the Company, pending between the U.States and the Company, touching the title to the lands granted by Congress to the Territory to aid in the construction of the railroad. If the Company fail, he believes Congress could be prevailed on to repeal the repealing act, tailing to do which, he recommends memorializing Congress to permit the Territory to enter the lands on five years credit, in alter nate sections, at \$1 25 per acre.

He suggests the necessity of a Government road from Lake Superior to the Mississippi, above St. Anthony, and of a military road to reach Fort Ridgely, the Sioux Agency, and the new fort at Pembina from some point below Lake Pepin.

What Railroans are Doing in the West.— The official returns of the new census of Illinois have just been received. The entire population is over 1,800,00d, which is a gain of about 50 per cent, upon the census of 1850. By comparing the increases through the several decades and sunidecades investigate the control of the several decades. and semi-decades since the census has been taken, it will be seen that the gain has been much larger during the last five years than in any former

From 1810 to 1820 the increase was, From 1820 to 1830 the increase was, From 1830 to 1835 the increase was, From 1835 to 1840 the increase was. From 1840 to 1845 the increase was, From 1845 to 1850 the increase was, 185,942 From 1850 to 1855 the increase was, 418,781

The railroad system has been developed in 11linois within the last five years, and one of the fruits, we see, has been to double the population A correspondent showed the other da other was to quintuple the value of her land. Add to these the improved society, the multiplied ed-ueational and moral influences, such as the news-papers, cheap books, &c., which follow population, and take advantage of all cheap methods of eommunication, and then one may begin to ap-preciate the advantages of the modern tailway system as an engine of civilization

A Letter from Judge Robertson. We find the following letter in the Yeoman of

yesterday. It speaks for itself: Wennesnay, Jan 30th, 1856.
To the Editor of the Yeoman:

Sir:-A friend having sent me your paper of this morning, I see that you have assumed the responsibility of misrepresenting a speech I made in the Capitol, on the night of the 27th instant, without having heard the speech yourself, and also of perverting my political principles and conduct, without, as I apprehend, knowing any-

thing about them.

I never said that the South ought to favor the estoration of the Missouri Compromise. I said that it was constitutional—was a southern measure—had probably saved the Union—assured more to the South than can be hoped for since the repeal of it. But that my party and myself, being opposed to any future agitation of slavery by Congress, are therefore opposed to the restoration of that compronise. But Ladded that I would of that compromise. But I added that I would not dissolve the Union for the Kansas Bill—and that, if a crisis should come in which the alternative would be the Union or that Bill, I would say Union! And what patriot would not?
I was never, as you say, a John Adams Fed-

eralist. Washington was always my model—is he not yours? Nor did I ever utter a sentiment favorable to Abolitionism, Federalism or Emaneipation. No citizen of Kentucky has written or poken as much on all these subjects as I have And, from 1819, when, for the first time, an attempt was made in Congress to interdict slavery in a Territory, which I then opposed, I have uni ormly opposed the agitation of Abolitionism, Federalism and Emancipation—as all my writings and speeches on those subjects will underliably

As to the imputed unsoundness of my Lectures on Constitutional Law, perhaps you might change your opinion, and be otherwise benefitted carefully read them as published. Their great aim was to nullify nullification. And the chief purpose of my late speech, so unjustly reported by you, was to prove that your party stands on a nullification platform. And I think G. ROBERTSON.

We have been for a long time satisfied that the so-called-Sanford patent is a fraud, and that it is vold, being a palpable plracy and intringement of the patent-right of John Boynton, which bears date 25th day of September, 1838, and has expired. We have been satisfied that the machine denominated Sanford's perfect Straw-Cutter is constructed not according to the specifications contained in Boynton's and all this has recently been decided in the P. S. Circait Court for the Middle district of Tennessee. Some months since, we sold to B. S. Weller, of Nashville, several of the so-called Sanford's Straw-Cutters, which were taken by him to the State of Tennessee and there sold. This M. Alexander claimed to be the assignee of Sanford's patent for the State of Tennessee from J. B. Ford & Co., and sucd Weller an Infringement. Weller defended and insisted that Sanford's patent is void and a piracy on Boynton's, and, as we before said, cour and jury so decided.

Who is Responsible for the Failure of the House to Organize!

We think it is capable of the most conclusive demonstration that the responsibility for the failure to organize the House at Washington, rests not with the American party, but with the Pierce Democracy, and with the "Republicums." Euch of the two last has had an opportunity to organize by the election of a man of its own party, and each has refused to do it, because the man it could elect did not happen to be the man whom it had made a party nominee.

The first of these opportunities was afforded to the Republicans. Mr. Thorington, of Iowa, proposed a resolution declaring Mr. Campbell, of Ohio, Speaker. Mr. Campbell was the first nomince of the Republicans for Speaker, and is probably as able, and us fit for the Speakership, as any man that party contains. This resolution received fifty votes, but fifty-two of the Republican party voted against it, and it was defeated. If these fifty-two had voted for it, it would have been adopted. But they chose to stake every thing upon Mr. Banks, and thereby prevented as organization, although they could have made on by electing a prominent member of their own

The next opportunity was given to the Deano eratic or Administration party, and they too re fused to organize when they could do so by the election of a member of their own party. Mr Carlile, an American from Virginia, proposed a resolution declaring Mr. Smith, of Virginia, Speaker. Mr. Smith is a Democrat, an ex-Governor of his State, a man of ability and of legislative experience He would probably make as good a Speaker as any man in his party. He hud not joined in the Demacratic eaucus at the beginning of the session which insultingly and slunderously charged the American party with naving "violently assailed the doctrines of civil

and religious liberty." Americans could thereore vote for him without dishonor, although he lid not belong to the! party, : r hau he voted for heir candidate, but for Mr. Richardson. How was the proposition in . Why, every member of the American party present, but one, voted for he resolution which declared Mr. Smith Speaker, but only seventeen members of the Demorate party voted with them. If the remainder of Mr. Or not being elected, he would act in bad faith were he to favor the resolution. He would the resolution would have been adopted; but they not only preferred Richardson to Smithpreferred a man who admits the power of Congress to pass the Wilmot Proviso, and contends hat no slaveholder can carry a slave into a territory and hold him there, unless the squatters settled there without slaves shall have first passed laws to protect and sustain slavery-but so much preferred him that they chose to leave the House unorganized, and the business of the country untransacted, rather than confer the Speakership upon a Virginia Democrat! The Ameri cans offered to unite with the Democrats in the election of Mr. Smith, a Democrat, and the Democrats refused! Who, then, is responsible for a failure to organize the House? Common sense cannot hesitate for the answer. The Dem ocrats are not only responsible for the failure to organize, but responsible for refusing to accept an organization which gave them, for Speaker, a competent conservative man of their own party; responsible not only for unreasonably and unnecessarily delaying the business of the country,

The telegraph informs un that on Thursday last the Democrats in Congress had yet two more chances to organize by the election of a national eouservative man Mr. Cox, Americaa, of Kentucky, proposed a resolution to the effect that in a spirit of patriotism, all the conservative members of the House should vote for Mr. Orr, of South Carolina, who, since Mr. Richardson's withdraw al, has been the Democratic candidate, and that in ease of a failure to elect him, they should all, in like manner, vote for Mr. Fuller. This was a fair and patriotic proposition. How was it reeeived? Why, the telegraph informs us that on ly 30 members voted for it. They were, we presume, the members of the National American party. We learn, also, that 176 members voted against it. This number could not be made up without a combination of the whole Democratic party in Congress with the entire host of Black Republicanism. What a peetacle for the country! The gallant, patriotic band of National Ameri eans, proposing a course of action which must se cure a conservative organization, and the Demorats combining with the Freesoilers to defeat it

Free-soilism in Congress by a national organiza-

tion of the House.

After the proposition of Mr. Cox had been de feated, the Americans made yet another effort for conservative organization. Mr. TRIPPE, an lady of Cumberland county, Pa., while sleigh-American member from Georgia, presented again the proposition which had been submitted by Mr Carlisle, and defeated, several weeks ago-viz: that Mr. Smith, of Virginia, should be declared Speaker. But this liberal and patriotic proposition was again rejected, and it could not have been rejected without the aid of Democratic

The country will demand to know what such Democrats desire-what they mean? Their ac tion seems incapable of explanation except a ponone or the other of the following hypotheses: . Washington, Jan. 31, P. M. Senate.—Mr. Nicholson was elected printer on the 4th ballot, receiving 29 votes.

Mr. Seward made an able speech npon Central American affairs, enforcing the Monroe doctrine in forcible language. war with England, concurring the Monroe documers in forcible language, alluding to the possibility of war with England, concurring with the present conflict convalsing Europe. He says the British administration has long been unfaithful to the cause of free institutions in Europe, and the French empire is in my eyes a hateful usurpation. Nevertheless, both of their administrations are temporary and practically ephemeral, while the Russian empire is an obstinate and portentious reality. I accept the oracular exposition of the first Napoleon; and believing that Europe must be soon either Republican or Cossaek, I recognize beneath the monarchial masks of the Allies the Western nations contending against an ad ancing despotism. Although no duty and should be very unwilling to engage my country in combination against them. I regret also the sad condition of the Central American States, which seems to render them as incapable of profiting by nr intervention as the French people were, when n 1789, they demanded a like juterposition in fulfillment of precedent treaties of commerce and alliunce. Nevertheless, war with Great Britain is now among the possible solutions of our present embarrassment. We certainly can look for o moderation on her part hereafter if we overook her persistent refusal to fulfill this, the mos solemn and important of all our international en gagements. It will be an idle dream to suppose ourselves free and safe if we leave her to waylay us on all sides of all our isthmus passages, from our Atlantic region to the Pacific States. MIGRATION TO KANSAS .- It is believed, by some of those best qualified to judge, that between ten and fifteen thousand new settlers are likely to be added to the population by midsummer next, from the East alone, and that the numbers from the Middle and Western free States will much increase that amount, while the preceding consulerable immigration of Free State men from the Sluve States will be a large item. A letter to the New York Tribune, dated at Lawrence, Jan. 5,

"Col. Lane received a note from Gov. Wright, of Iudiana, by the last mail from Westport, which, from the influence it has exerted, deserves to be recorded in the annals of our State. OFFICE LEXINGTON AND DANVILLE R. R. Co., Lexington, Dec. 1st, 1855 (Messis, Larz Anderson and James Hall, Circin

nati, Ohio. Gentlemen.—By request of several Cincinnati Stockholders, I take leave to present the follow ing authentic facts as to the present condition and the future prospects of the Greet Central Roilroad through Kentucky, of which the road from Covington to this city forms the 1st link, and that from here to Danville the 2nd and most important as well as the root cavity. mportant, as well as the most costly one, leaving only one other between Danville and the Tennessee ine, to one or more points, as may be deemed recessary, to unite Cincinnati with the whole onthern system of Railroads.

There are but four counties directly interested the road under my charge, (2d link,) viz: Faytte, Jessamine, Mereer, and Boyle, Lexington being the county seat of the first, and Danville of the last named; and they have subscribed and punctually paid, with few individual exceptions, e following amounts of stock:

From every indication and information since received, this sum will be had, if I can finish the road to the bridge before next harvest, inasmuch as they are now paying twenty cents per bushel for hauling wheat on the thrupike to this city, instead of three, which would be a reasonable harge by Railroad.

Whether or not I shall be able to do this, will deend entirely on your city. I cannot hope to raise any more private stock here, inasmuch as this is only one of five similar works to which our city and county have made, and paid large subscriptions, and you will remember our whole city pop

Under the confident hope and expectation that the Cincinnati subscriptions would easily reach \$100,000, I put all the unfinished sections be his place and the river under contract last June and it is rapidly approaching completion; but my incoming money is now insufficient to pay the nonthly estimates, and the contractors and labor ers are consequeutly becoming discontented.— Some of the latter have stopped work. I have also purchased the right of way—ove

hree-fourths of a mile-through our city, and the graduation, masoury, trestle-work and bridging, will be ready for the iron up to the Coving on depot early in January.

With another small effort, it seems to me, the emaining \$32,000—to make up the \$100,000—could be raised among your property holders and business men, payuble in four or five monthly in stalments, and with that I can get to the Ken tucky River, as promised, by next harvest.

The discovery of the open Circumpolar Sea, appears to have been made by a Russian officer thirty years ago. This was Lieut. Wrangle, who somewhere about the year 1824, advanced by sleds across the ice from the northern coast of Siberia, due north to the open sea. Lieutenant (now Admiral) Wrangle took frequent soundings during the trip, and found the water shallow, with a mud bottom. The climate became more moderate as he made northing. According to his estimate of his position at the margin of the ppen polar ocean, he must have been near the parallel of 82 deg. north, on which Dr. Kane was when he saw the same sea, almost on the opposite side of the Pole. Lieut. Wrangle concented provisions in the ice as he advanced, which he cut out for supplies on his return. 900 ACRES.

3600 A CRES.

It will be divided in parcels to suit purchasers, apportioning a sufficiency of water and timber to each parcel, plats of which will be exhibited upon the day of saic. 500 acres of the tract is most excellent Hemp land, and the whole 900 is in a very high stato of enlivation, with a new Stone Wall sarrounding the whole—its crection having cost Mr. Trabae from \$5 to \$6 per rod. The whole tract is watered by several cold, never falling springs, and the stream of Dry Rim creek passing directly through the center; besides there are several excellent ponds. All the advantages together makes it one of the most desirable tracts of land in Kentucky.

Also, at the same time, will be sold all the real and personal estate of said Trabue, contained and referred to in the deeds of mortgage and assignment (sisaid Trabue to Archibald King and others, and W. D. Reed and others, of record in the office of the Franklin County Court, which has not already been disposed of.

Terms of Sale.—In equal instalments of 6, 12, and 18 months from day of sale, bearing interest from date. Bond and approved security required of the purchaser, having force and effect of a replevin bond, and a lien retained upon the land for the payment of the purchase namey. The persannity will be sold upon a credit of six months, with food and secarity as above.

It is well known that there is great economy lucrushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the color when properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and rs, has been their complex arrangement and high

the Kentucky Cern and Coh Mill, of which the In the Kentucky Cern and Coh Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set acrew, which is easily moved by hand, and is applied directly under the centre of the mill.

Any one using these Mills will find a clear saving of one granter of their corn over the old plan of feeding. We warrant these Millstogive outire satisfaction. Purchasers may use them for thirty days and if not satisfied, can return them and get their money.
